Simply working smarter

with Philips transcription solutions

The Philips desktop transcription system is a document creation solution specifically designed to make transcription easy and intuitive. With the ergonomic foot pedal for hands-free playback control and the professional transcription headphones, the desktop transcription system takes transcription to a new level.

Enhance your productivity

- Auto rewind for fast return to the beginning of the tape
- Search forward and skip functions for quick access to the start of the next recording
- Can be used as both a dictation and transcription machine with additional accessories

Superior audio quality

- Ergonomic foot pedal for convenient playback control
- Lightweight stereo headphones for enhanced wearing comfort
- Tone, speed and volume controls for crystal clear playback at all times
- Integrated speaker ensuring crystal clear playback

Designed for professionals

- Auto backspace pauses transcription without missing a word
- Record protection for saving valuable dictations
- Turbo wind for fast access to any part of the tape

PHILIPS
sense and simplicity

Highlights

Auto rewind

Auto rewind allows you to save time by quickly returning to the beginning of the tape automatically.

Search functions

Search forward and skip functions allow quick access to the start of the next recording, making it easier to navigate through your recordings.

Versatile functionality

The Philips multifunctional handheld remote microphone LFH0276/00 with built-in speaker turns your Philips desktop transcription system into a dictation recorder.

Ergonomic foot pedal

Slim, ergonomic design guarantees hands-free control of all playback functions with minimal physical strain.

Lightweight stereo headphones

Lightweight under-the-chin style stereo headphones designed to deliver excellent sound quality, with soft ear cushions for enhanced wearing comfort.

Volume, tone and speed controls

Variable tone, speed and volume controls guarantee crystal clear playback and provide all the necessary features for transcription accuracy.

Crystal clear playback

The built-in front speaker guarantees crystal clear playback of your dictation files.

Auto backspace

The auto backspace automatically replays the last few seconds to review recorded material for transcribing confirmation and an accurate and fast transcription.

Record protection

You can safeguard valuable dictations using the record protection function. This way you will never accidentally record over valuable recordings.

Turbo wind

The turbo wind function allows you to jump to any part of the tape within seconds and save you valuable time.
