How to set date and time

How to set the date and time for your VoiceTracer Audio Recorder Pen

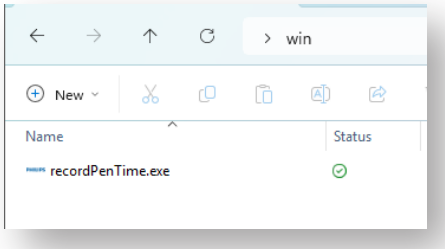

This document describes how to set the date and time for the DVT1600 and DVT1610.

To use the tool, you need to connect the pen to a Windows PC or Mac.

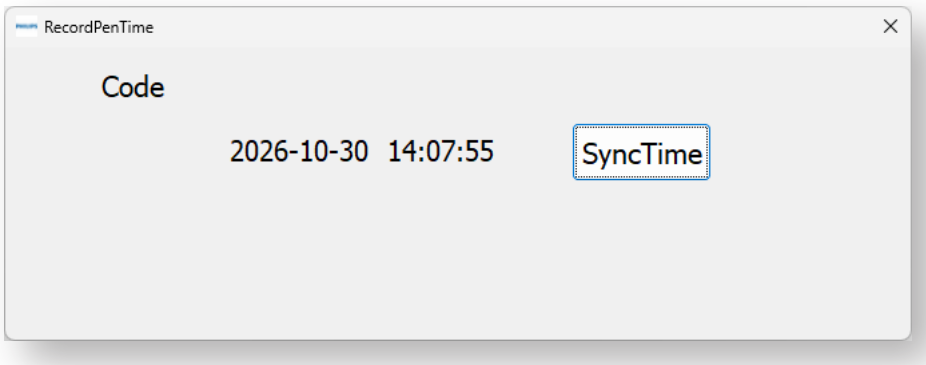

Windows

Download and extract the DVT1600/DVT1610 Time Tool on your Windows PC.

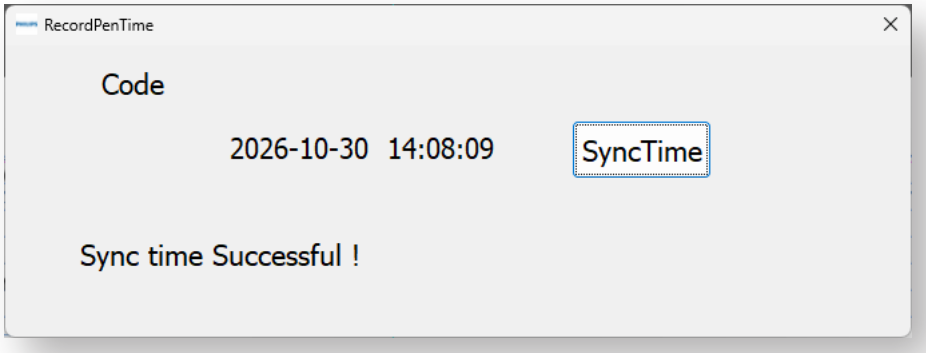

Locate the tool **recordPentime.exe** in the **win** folder and double click on recordPentime.exe to start the tool.

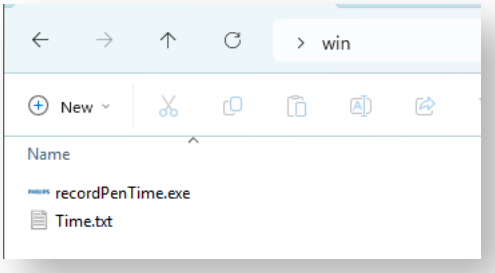

The current date and time is now visible on the tool.

Press the “SyncTime” button and “Sync time Successful !” should appear.

A text file has been created on your device (Time.txt).

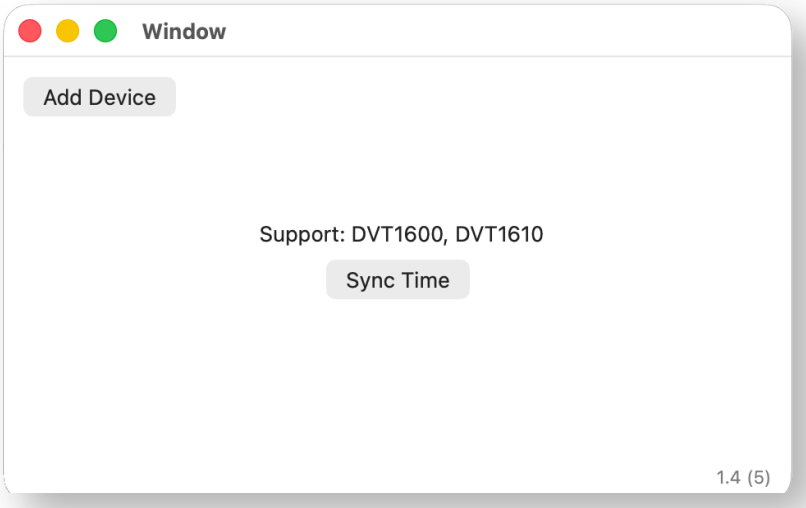

Unplug your Audio Recorder Pen and the date and time is now configured on your device.

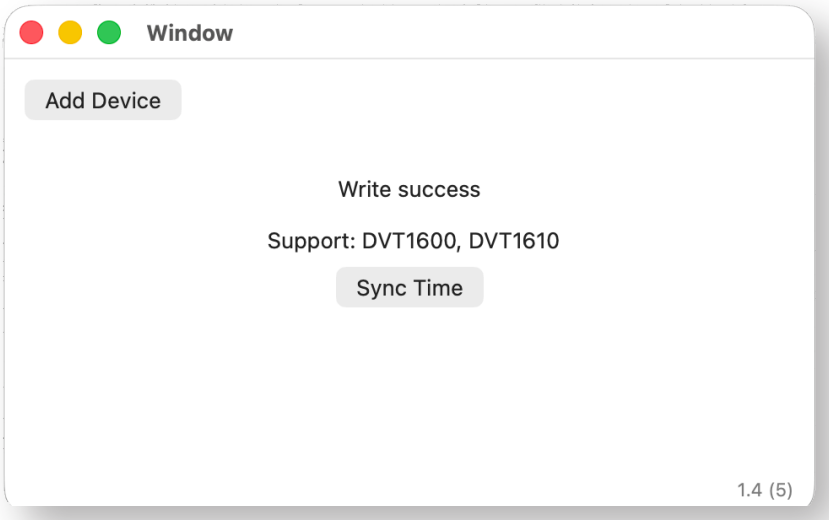

MacOS

Download and extract the DVT1600/DVT1610 Time Tool on your Mac.

Locate the app **RecordPentime** in the **mac** folder and double click on **RecordPentime** to start the tool.

Click on “Sync Time” and the text “Write success” should appear.

Unplug your Audio Recorder Pen and the date and time is now configured on your device.
